RE: **Heavy Equipment on Site for Boiler Project**

Heavy Equipment on Site for Boiler Project

Friday, August 21, 2026

The boiler replacement project is underway and is going well. It's now time for the heavy lifting and there will be a crane onsite Friday, August 21st from 6:00 AM – 1:00 PM.

During this time, there will be no parking in the visitor lot area designated on the attached photo.

The NW pedestrian door will also be closed for entry and exit for the duration of the crane work. Anyone trying to access the building through the NW door will need to go through the lobby.

All tenants, visitors and vendors will need to stay clear of the work zone.

The loading dock will not be affected. Access and deliveries can still take place during the work.

We appreciate your patience and cooperation as we complete this important upgrade to our building's infrastructure.

If you have any questions or concerns, please contact your agency representative:
